ALP. Objection, Last Paragraph Page 3.Assistance and Direction by Member for Boothby.

The members of this family are grateful to the Member for the advice and help re our previous submission.

We are notified of the opportunity to object if we were interested.

The suggested text expressed our views much better than we were able to.

Our objection to the suggested redistribution are sincere, and we resent the implications stated by the ALP in their submission.

It would not be entirely inaccurate to consider Aust. Labor Party's opinion to be self-serving.
