Notes for divisional summaries

Number of candidates

The number of candidates on the ballot paper for each division has been added to divisional summaries for the 2016 House of Representatives elections. A higher number of candidates may have an impact on informality categories as it increases the likelihood of voters making errors while marking their ballot (i.e. non-sequential numbering), or simply choosing to stop numbering at a given point (i.e. incomplete numbering).

Demographic rating

The following demographic ratings are applied to divisions:

- *Inner metropolitan*: located in a capital city and comprising well-established, built-up suburbs.
- *Outer metropolitan*: located in capital cities and containing areas of more recent urban expansion.
- *Provincial*: divisions with a majority of enrolment in major provincial cities.
- *Rural*: divisions without a majority of enrolment in major provincial cities.

Swings

Percentage point swings for turnout and formality are included to show how these measures have increased or decreased between the 2013 and 2016 federal elections (a positive swing indicates the measure has increased, while a negative swing indicates it has decreased). Calculations for swings account for the redistribution of divisional boundaries.

Informality categories

For the purposes of these divisional summaries, informal ballot papers have been grouped into the following categories:

- Totally blank ballots
- Ballots with incomplete numbering
 - Those with a number '1' only
 - All other ballots with incomplete numbering
- Ballots with ticks and crosses
- Ballots with other symbols
- Ballots with non-sequential numbering
- Ballots with scribbles, slogans and other protest vote marks
- Ballots with illegible numbering
- Ballots where the voter has been identified

- Other informal ballot papers

Counts by informality category are divided between ballot papers showing a clear first preference and those with no clear first preference.

- Ballot papers that are informal due to incomplete numbering or voter identification will always show a clear first preference.
- Similarly, ballot papers that are totally blank or that have been placed in the category for scribbles/slogans or protest vote marks will never show a clear first preference.

Polling places with highest and lowest informal voting rates

For the purposes of these divisional summaries, polling places include static polling places and pre-poll voting centres, as well as votes cast through mobile polling teams. Polling places or teams that received fewer than 100 ordinary or pre-poll votes in total (i.e. formal and informal votes combined) are excluded.

Banks

Number of candidates: 7

Demographic rating: Inner Metropolitan

| Key statistics | No. | % | Swing |
|----------------|---------|-------|-------|
| Enrolled | 104,891 | .. | .. |
