Hi AEC

We are residents of Norfolk Island and we strongly object to be included in the proposed ACT Federal redistribution 2018.

Norfolk Island is a remote Pacific Island and its closest neighbours are NOT Australia. This island has never geographically, ethnically and culturally been part of Australia.

We have been and continue to be disenfranchised and to include this island in an ACT electorate continues this inequality. We are governed under NSW law but are not entitled to vote in NSW.

We have no ties with Canberra - we are a remote island in the Pacific and therefore should be treated as a separate entity.

Yours Sincerely

Mervyn Buffett

Clare McPherson
