Comments on suggestions for 2020-2021 Victorian Redistribution
21 October 2020-10-21

Hello there,

I support the range of suggestions in submissions 74, 92 and 96. All these submissions put forward names of important women in Victorian community, civic and political life. Many of these women remain so far unrecognised in formal political and community place names, signs and statues.

This is a great opportunity for the AEC to take the lead in redressing this yawning gap.

Thank you for the opportunity to comment.
