Introduction

To the Redistribution Committee for the Australian Capital Territory,

Firstly, I would like to thank the Redistribution Committee for the opportunity to make this submission and proposal for the Electoral Redistribution of the ACT.

This submission contains my proposal on where to re-draw the electoral boundaries for the 3 Commonwealth Electoral Divisions, to which the ACT is now entitled as a result of the Determination.

This is my 8th submission / proposal to the AEC in relation to Commonwealth Redistributions in the past 4 years; having previously provided submissions and objections to the AEC's Redistributions of WA, NSW, the ACT (2015), the Northern Territory, Tasmania, Queensland and Victoria since 2014.

I have also made contributions to State Redistributions in Victoria (2013) South Australia and Queensland (both 2016).

This submission/proposal is written as a narrative, which hopefully conveys to the reader the logic I have used to make my determinations and proposals. It should be viewed in conjunction with the accompanying SA1 spreadsheet detailing all 2011 SA1's in the ACT and any proposed changes to them.

It's worth stating at the commencement of this submission; that at other recently conducted Redistributions; Redistribution Committees for other States - most notably Queensland - have opted for minimal elector movement between Divisions, purely to satisfy numerical requirements.

Such an approach, I believe, is not within the intent or the spirit of Sections 66(3) and (3A) of the Commonwealth Electoral Act

Only by challenging every "what is" can we create a better "what will be".

A list of abbreviations and acronyms which may be used in this submission

ABS – Australian Bureau of Statistics

ACT – Australian Capital Territory

AEC - Australian Electoral Commission

ASGS - Australian Statistical Geography Standard

CED – Commonwealth Electoral Division

SA (SA1, SA2, SA3, SA4) - Statistical Areas used by the ABS: SA1 being the smallest and SA4 being the largest state-based Statistical Area.

The Act - Commonwealth Electoral Act (1918)

N, S, E, W, NE, SE, NW, SW, etc. – Compass Points: North, South, East, West, North-East, etc.

ACT 2014-5 Commonwealth Redistribution:

<http://www.aec.gov.au/Electorates/Redistributions/2014/act/index.htm>

Compliance with the Commonwealth Electoral Act (1918)

(Those who have read my 2017 submissions to the Queensland & Victorian Commonwealth Redistributions can skip this section and go to Page 9.)

Over the past few years, at Redistributions performed for other States, I believe that some Redistribution Committees have misinterpreted The Act, or at least applied a principle that I would argue is contrary to The Act.

For that reason I have copied and pasted Sections 66(3) and (3A) of The Act below. I will expand on my interpretation of The Act below that.

(3) In making the proposed redistribution, the Redistribution Committee:

(a) shall, as far as practicable, endeavour to ensure that, if the State or Territory were redistributed in accordance with the proposed redistribution, the number of electors enrolled in each Electoral Division in the State or Territory would not, at the projection time determined under section 63A, be less than 96.5% or more than 103.5% of the average divisional enrolment of that State or Territory at that time; and (b) subject to paragraph (a), shall give due consideration, in relation to each proposed Electoral Division, to:

(i) community of interests within the proposed Electoral Division, including economic, social and regional interests;

(ii) means of communication and travel within the proposed Electoral Division;

(iv) the physical features and area of the proposed Electoral Division; and

(v) the boundaries of existing Divisions in the State or Territory;

and subject thereto the quota of electors for the State or Territory shall be the basis for the proposed redistribution, and the Redistribution Committee may adopt a margin of allowance, to be used whenever necessary, but in no case shall the quota be departed from to a greater extent than one-tenth more or one-tenth less.

(3A) When applying subsection (3), the Redistribution Committee must treat the matter in subparagraph (3)(b)(v) as subordinate to the matters in subparagraphs (3)(b)(i), (ii) and (iv).

Interpretation

The first of only 2 absolute directives is that enrolment numbers must not deviate by more than +/-10% from the current State or Territory average [as detailed below section 3(b)(v)]. The words '*but in no case shall the quota be departed from to a greater extent than one-tenth more or one-tenth less*' leave no room for any exception to this requirement.

The '*...not...be less than 96.5% or more than 103.5% of the average divisional enrolment of that State or Territory at that time*' referred to in Section (3)(a), is to be met as far as practicable, but is not an absolute directive. As average Divisional enrolments have increased, the number of electors that make up that +/-3.5% becomes greater; so achieving the projected target range has become easier to meet. The phrase '*far as practicable, endeavour to ensure that*' is not an absolute directive, but should be met at all times except in the case of an exceptional circumstance.

The Act clearly states that after the numeric requirements have been met, the Committee *shall give due consideration* to subparagraphs 3(b)(i), (ii), (iv) and 3(b)(v) with qualification.

Whilst the phrase “*due consideration*” cannot be quantified, some basic dictionary definitions for each point are detailed here as a guide. It would be expected that any Redistribution Committee 'worth its salt' would apply these considerations to determining which characteristics would best fit within each individual Division.

Subparagraph 3(b)(i): *community of interests within the proposed Electoral Division, including economic, social and regional interests*

An economic community of interest may be an area that is strong in a particular form of industry or service. Examples could include a specific Primary Industry such as forestry, dairy, wheat or cattle; Manufacturing; Transport and Distribution; Tourism; Provision of Government Services, etc.

A social community of interest may relate to a community with similar social support needs (EG high unemployment, low English speaking or a predominance of people from a similar ethnic background); or communities with a similar household income level - this information is readily available from the ABS. Communities with strong political affiliations could also fit this category.

Subparagraph 3(b)(ii) *means of communication and travel within the proposed Electoral Division*

Communication and travel has traditionally related to road and rail links, though sea and air links are also to be considered for offshore islands.

Subparagraph 3(b)(iv): *the physical features and area of the proposed Electoral Division*

Physical features and area may relate to coastal, elevated, inland or urban areas; also offshore islands of similar latitude or longitude. The intention is to reduce the instances of Divisions containing multiple, relatively unrelated areas.

Subparagraph 3(b)(v): *the boundaries of existing Divisions in the State or Territory*

Finally, as is directed in Section (3A); **THEN, AND ONLY THEN**, are the existing boundaries to be considered.

Again, we have an absolute directive - '*the Redistribution Committee must treat the matter in subparagraph (3)(b)(v) as subordinate to the matters in subparagraphs (3)(b)(i), (ii) and (iv).*' (Bold underline my emphasis.) One definition of subordinate is “treat or regard as of lesser importance than something else.”

As I read Section 3A; it clearly instructs the Redistribution Committee to treat every new Redistribution of a State or Territory as a virtual 'blank canvas': Not to initially consider the existing CED boundaries, but use other means to fulfil the requirements of subparagraphs 3(b)(i), (ii), (iv) - including LGA boundaries, as the basis for the Community of Interest requirement. Subparagraphs 3(b)(i), (ii) and (iv) are **THE** bases to get the number of electors required to fulfil the numerical requirements of a CED; not the current boundaries.

For most of the Commonwealth Redistributions that I have contributed to, the Redistribution Committees have treated the existing boundaries as the starting point for any boundary changes.

But this is precisely what The Act **doesn't** instruct. It specifically states: Existing boundaries are **subordinate**. That is; beneath, or of lesser importance than, 3(b)(i), (ii) or (iv)!

This is where I believe some other Redistribution Committees have got it wrong. For example, the 2014-5 NSW Redistribution Committee adopted the principle:

- *the maximum number of electors are retained in their current electoral division.*

Similarly, as has been indicated above, the 2017 Redistribution Committee for Queensland adopted the principle:

- *minimise the movement of electors (between Divisions), to the extent possible*

There is nothing in Part IV of The Act - neither written nor implied - that could give the impression that the 'elector retention' principle was a valid principle that could be interpreted from The Act.

I sincerely believe that this 'elector retention' principle is contrary not only to what is written; but also contrary to the intent of The Act.

The existing boundaries are nothing more than the framework of a house. The external framework must remain (State boundaries; sea boundaries), but inside the house that framework can be moved time and again as the needs of the house change.

I implore the Redistribution Committee for the ACT; please don't make the same mistake that your NSW and Queensland counterparts did; do NOT to set as one of your principles, that "*the maximum number of electors are retained in their current electoral division*" - or words to that effect.

If retaining the maximum number of electors in the same division was one of the bases of what an electoral Redistribution was supposed to be; then this is what would be written into Part IV of The Act. Such a requirement would have been given the same weight as complying with subparagraphs 3(b)(i), (ii) and (iv).

But this requirement isn't written into The Commonwealth Act – and it isn't written in for a reason. The reason is that The Act was never meant to be interpreted or applied in that way.

In my submission / proposal below, I have taken the approach as per my understanding of Sections 66(3) and (3A) of The Act when proposing my new Divisional boundaries.

Again, I cannot over emphasise the importance of The Act being applied as it's written, not as - I believe - it's been mistakenly interpreted by other Redistribution Committees.

That's why this page and the 2 preceding pages have been dedicated to such an in depth analysis of The Act.

My principles for strong Divisional boundaries

The people who endure the greatest impact of Electoral Redistributions are the electors themselves. I believe it is critical that any new boundaries proposed are simple, strong and easily recognisable; not just by those with a surveying background, but by the electorate at large. Just as importantly, these boundaries must be logical.

As a rule, I will try and unite a complete SA2 or Locality in a Division where it is practical to do so - especially in regional areas.

In urban areas I will try and follow a road, rail line or a watercourse where this provides a clear and preferably continuous boundary.

Specifically; if my boundary is a road, the boundary will follow the centre line of the road. If the road is a divided road, then the boundary will follow the centre of the median strip. If my boundary is a rail line, then the boundary is the centre of the two rails. If there are multiple lines; the boundary is the mid-point between the 2 outside rails. If my boundary is a watercourse, it will follow the deepest part of that watercourse.

Whilst these boundaries may not strictly align with Locality, SA1 or current Divisional boundaries, I believe they provide the clearest definition of these types of boundaries.

I have attempted to align all my proposed boundaries with SA1 boundaries, but in instances where they diverge; the elector count in the part of an SA1 in an alternative Division is always zero.

Types of boundaries my submissions will never propose:

Part of the existing boundary between the Divisions of Bendigo and Murray in Victoria is described on the maps as "LINE OF SIGHT"

Similarly, in Queensland; part of a pre-existing 2009 Divisional boundary was described as "A SERIES OF LINES".

On the naming and placing of the 3rd CED for the ACT

Divisional Name for consideration

I propose that the Divisional Name **Namadgi** is reinstated as the 3rd Divisional Name allocated to the ACT.

This name has been previously used between 1994 and 1997 when the ACT was last entitled to 3 Divisions.

The location of the proposed 3rd Division

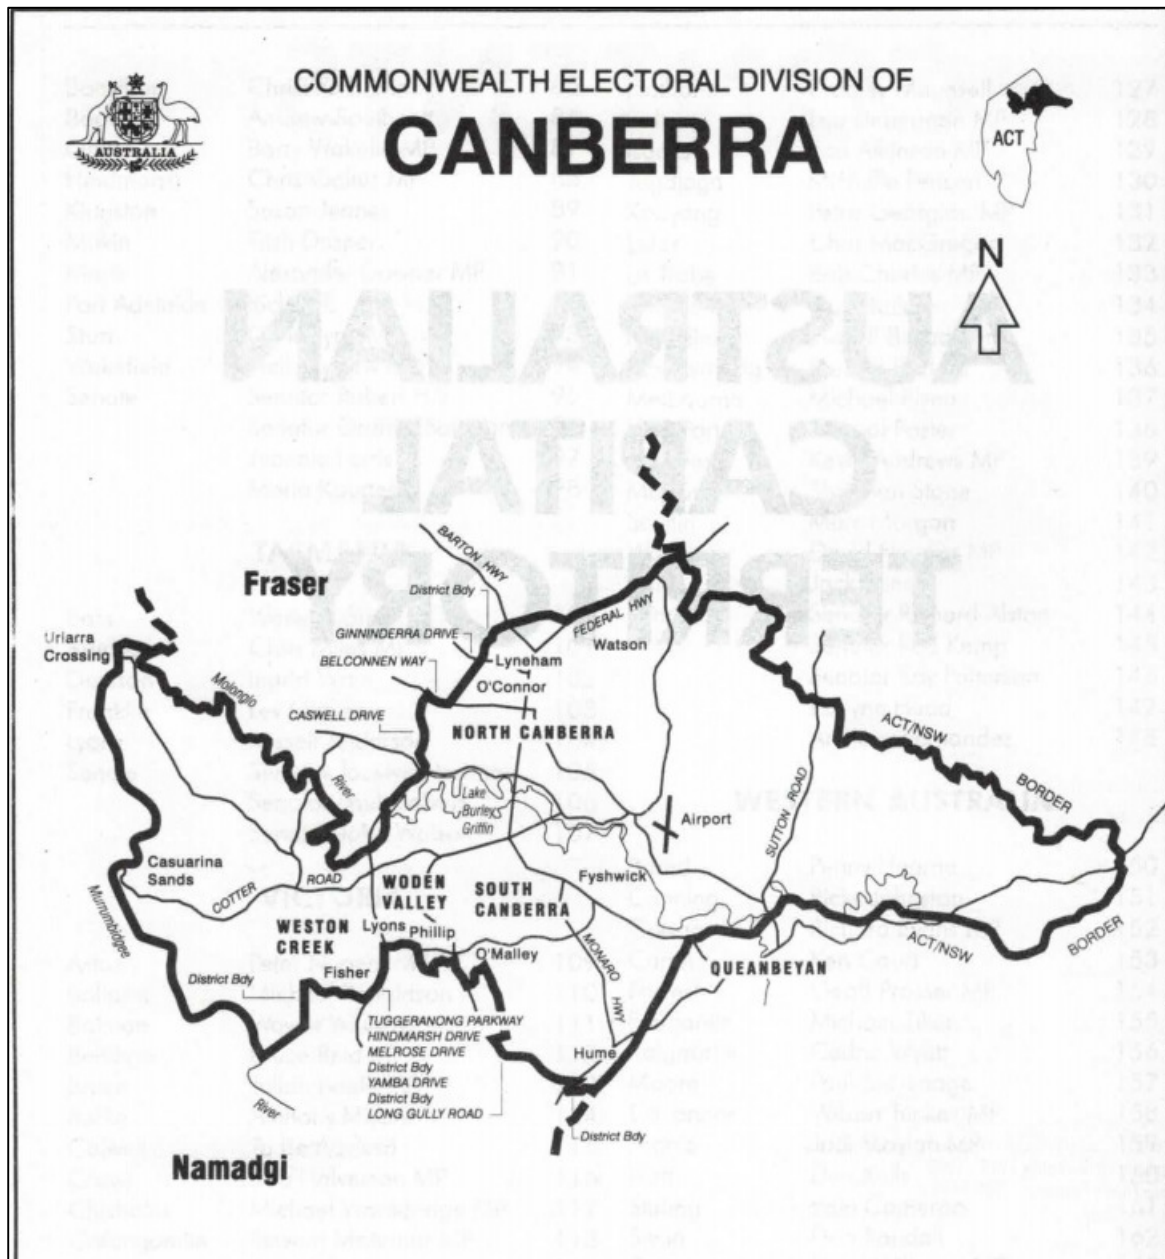

Image 1 – Map outlining location of 3 Divisions in ACT from the 1990's – Thanks Martin Gordon!

During its previous period of existence, the Division of Namadgi was in the southern part of the ACT.

I was both amused and perplexed to read that the AEC is already informing those of us planning submissions EXACTLY where it thinks the new Division should be placed!

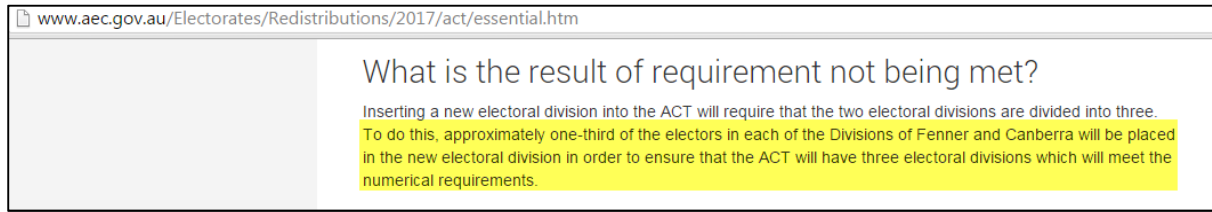

Image 2 – AEC Website detailing its expectation of where 3rd Division is to be placed.

I appreciate that The AEC and all Redistribution Committees have a **principle** that the majority of electors should remain in the same Division whenever a new Division is added or removed; however there is **nothing in the relevant legislation** which supports the application of such a principle.

If we apply the same logic when the ACT last comprised 3 Divisions: Where the Division of Fraser was in the N; the Division of Canberra was in the centre and the Division of Namadgi was in the S; why weren't the electors of Canberra distributed 50% to Fraser and 50% to Namadgi when the ACT's entitlement was reduced from 3 Divisions to 2?

Where was the application of the same principle in 1997?

The AEC and Redistribution Committee for the ACT can't have it both ways!

This proposal will use as its basis, the 1994-1997 boundaries and the Divisional Names located in the same general areas that they were at that time with the obvious exception that Fraser is now Fenner.

Approach

My approach was to fulfil the numerical requirement of my proposed version of Namadgi in the S of the Territory first, then to pare back Fenner in the N to numerical compliance with Canberra picking up the surplus from Fenner.

Proposed Divisions:

Namadgi

I propose Namadgi returns to the southern part of the ACT where it previously existed between 1994 and 1997.

Whilst my proposed boundaries do not quite align with the previous boundaries they do align with 2011 SA2 boundaries - at least as far as numbers are concerned.

My proposed 2018 version of Namadgi runs from where the Murrumbidgee River crosses into NSW in the NW of the ACT; runs upstream along the Murrumbidgee River, then upstream along the Molonglo River to its Lake Burley Griffin retaining wall; then turning generally S along Lady Denman Drive; E along Cotter Rd; S along Yarra Glen; continuing S along Melrose Drive; S again along Athllon Drive; E along Beasley St; S into Yamba Drive; SE along Long Gully Rd and continuing along Mugga Lane; SW onto the Monaro Highway and finally turning SSE just before the Isabella Drive roundabout to follow Hume's locality boundary to the NSW border. Images 3 and 4 on the next page illustrate this proposed boundary.

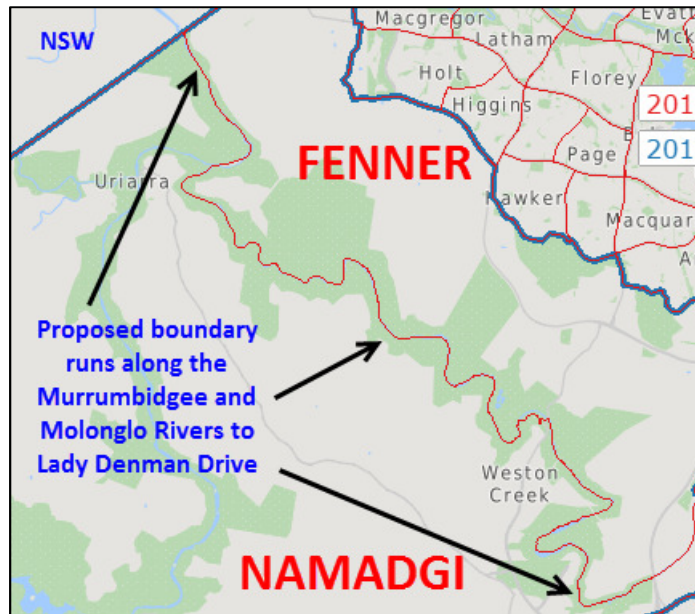

Image 3 – Proposed Fenner – Namadgi boundary.

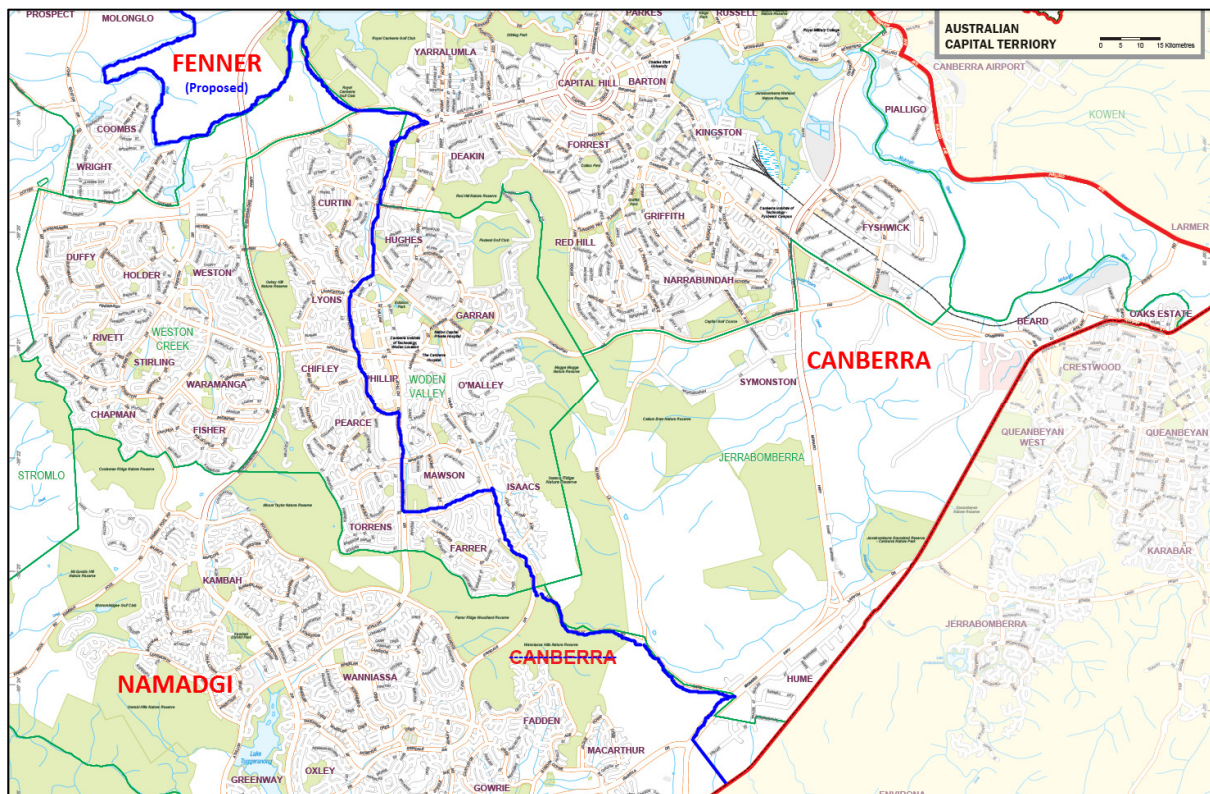

Image 4 – Proposed Namadgi – Canberra boundary within the existing Division of Canberra.

Table of transfers - Namadgi

Division	Component	Proposed	Projected
Namadgi		0	0
From Canberra	Tuggeranong SA3 - all	64,992	62,714
From Canberra	Weston Creek SA3 - all	17,374	16,737

Variation		4.05%	-0.93%
To Namadgi	Total transfers in	100,009	98,768
From Namadgi	Total transfers out	0	0

Fenner

The SA3's of Belconnen and Gungahlin provide the base of the current version of Fenner, but with a projected enrolment of 124,102 for both SA3's combined; it was numerically impossible to retain all of both SA3's in the new version of Fenner.

With the SA3 of Belconnen having the greater current and projected population, I decided to retain Belconnen as the base for my proposed version of Fenner.

In its NW, my proposed Division of Fenner shares the watercourse boundary of the Murrumbidgee and Molonglo Rivers with my proposed Namadgi. From Lady Denman Drive, my proposed Division of Fenner follows the SA2 boundary clockwise around the north shore of Lake Burley Griffin until it meets Sullivans Creek. From there, the boundary turns briefly W on Parkes Way; NNE onto Clunies Ross St; NNW onto Barry Dr then W onto Belconnen Way. Turning NE on Gungahlin Dr; NNW onto the Barton Hwy; NE on Gundaroo Dr; N on Horse Park Dr and finally NE on Mulligans Flat Rd to the NSW border.

Fenner also retains Jervis Bay.

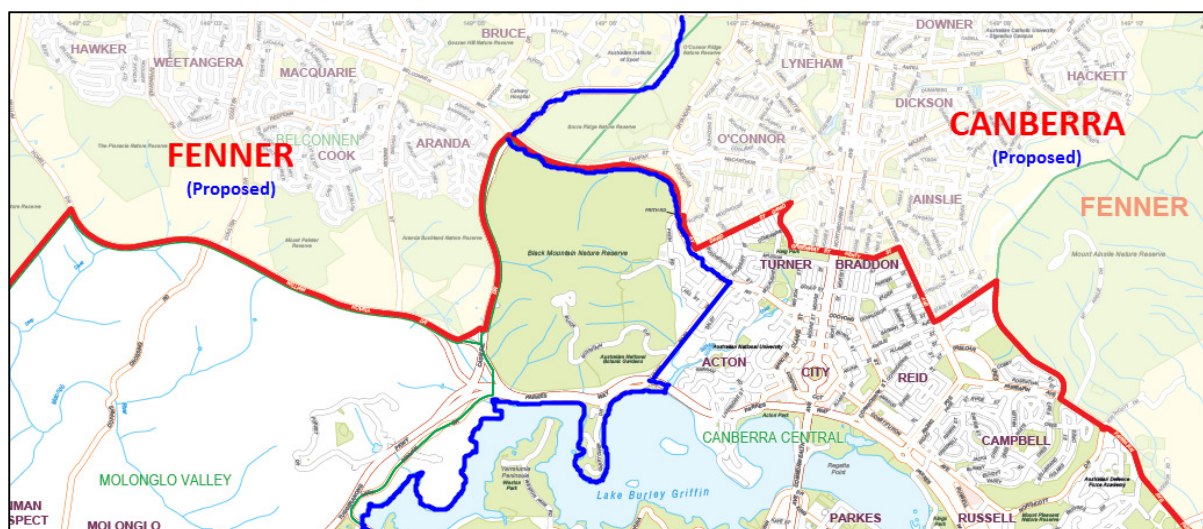

Image 5 – Proposed Fenner – Canberra boundary within the existing Division of Canberra.

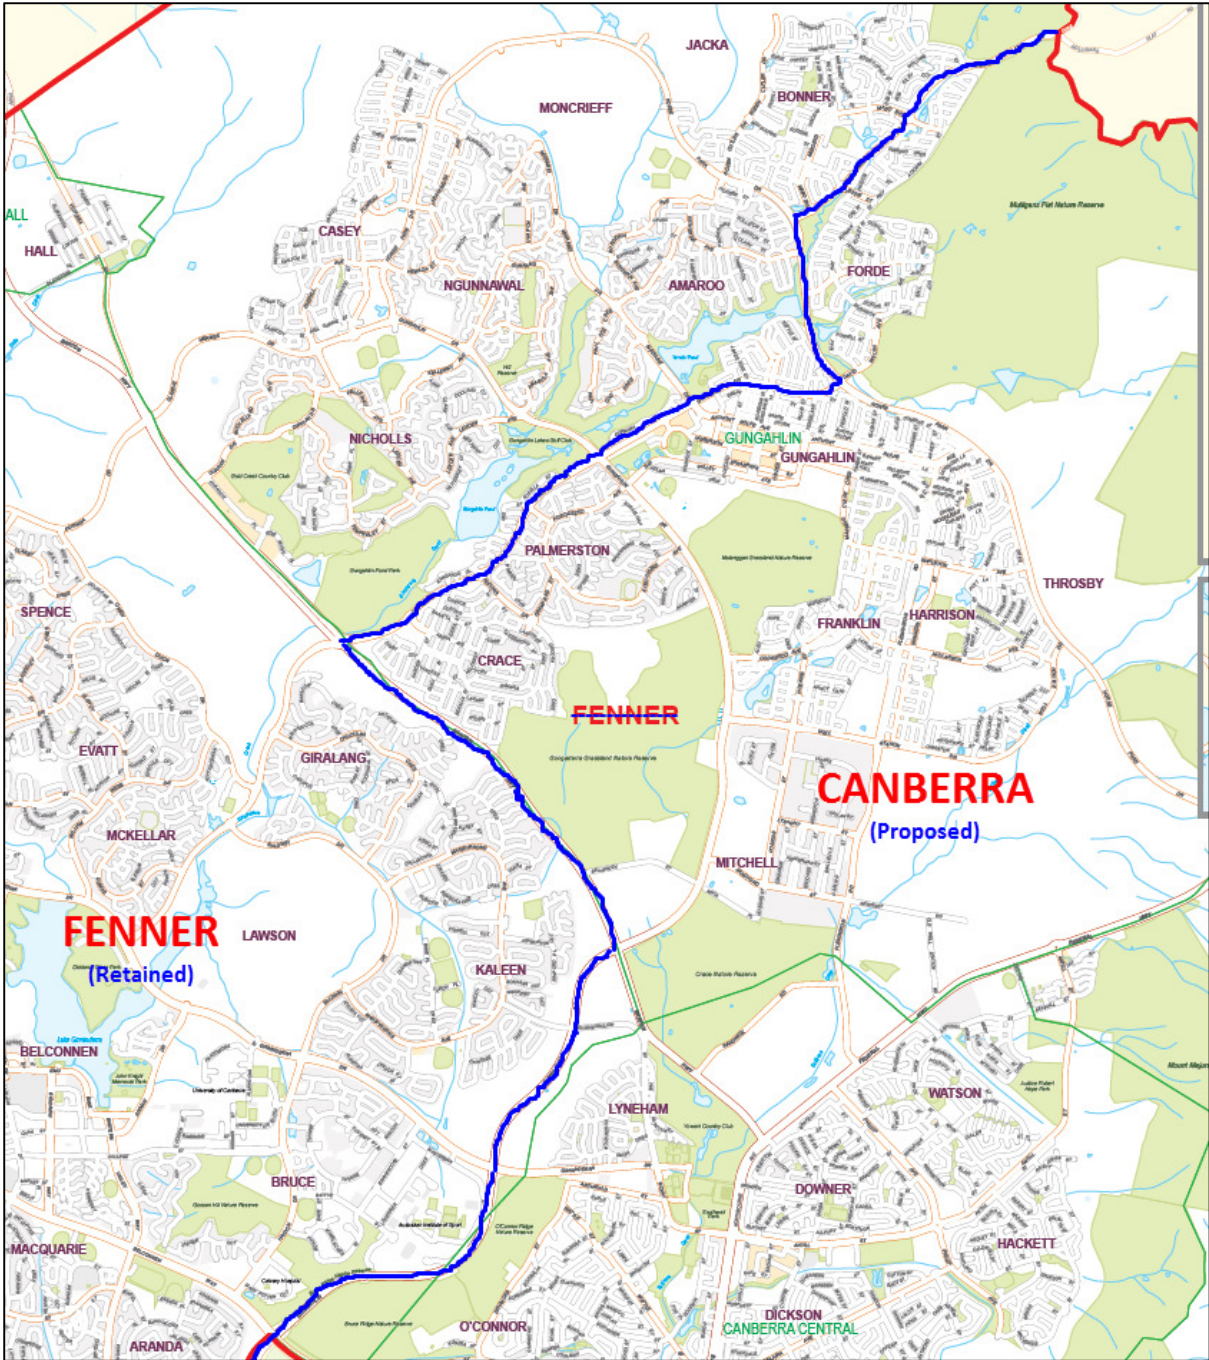

Image 6 – Proposed Fenner – Canberra boundary within the existing Division of Fenner.

Canberra

Canberra gains the balance of Canberra Central from Fenner, uniting the inner City in the Division of Canberra. Canberra also gains Canberra Airport and ACT East from Fenner.

Put simply, Canberra gets the rest plus it retains Norfolk Island.

Table of transfers - Canberra

Closing remarks:

To the Redistribution Committee for the ACT:

With 3 Federal Redistributions running simultaneously, there has been a lot of number crunching performed in the past few weeks by those of us with an interest in the Redistribution process.

Ultimately, with 38 Divisions to assess for Victoria and reducing South Australia from 11 Divisions to 10; I have not been able to dedicate as much time to my ACT submission as I could have – had it been performed “stand-alone”.

One thing I do ask is that the Redistribution Committee for the ACT, give favourable consideration to the submission from Martin Gordon.

Martin has been a regular, independent contributor to Electoral Redistributions at both Commonwealth and State/Territory level for many years. And being an ACT resident, his local knowledge will be invaluable guide on where the Redistribution Committee for the ACT should draw the boundaries for the 3 Divisions to which the ACT is now entitled.
