---

Flemington should remain in the Federal electorate of Melbourne. Historical, geographic and demographically Flemington is strongly connected to Kensington and the inner city. Flemington residents will be properly represented in an electorate which includes its community of interest.

Flemington is physically a small area which requires specific infrastructure with our high population density and very specific requirements in a true multi cultural community.

The inner city has completely different requirements than outlying suburbs and that is why we should remain under the electorate of Melbourne. Although our suburb is small geographically, it is very dense living and we will be forgotten if included in the very large electorate of Maribyrnong which services areas of land density.

**DO NOT RE-DISTRIBUTE - WE WANT TO REMAIN IN MELBOURNE, A HISTORY OF OVER 100 YEARS.**
