VICTORIAN FEDERAL REDISTRIBUTION OBJECTION

CHANGES TO FLEMINGTON

As a resident of Flemington I strongly identify as being part of Melbourne not Maribyrnong. I work, shop, eat and do business in and around Flemington/Kensington and do not venture into Maribyrnong often. I see Flemington as entirely different demographically to Maribyrnong especially regarding our infrastructure and access to open spaces. I like the density of Flemington with its city feel – Maribyrnong has a completely different feel.

I would prefer to be part of Kensington again. I cannot believe that we have been split from our historical sister Kensington and this proposed change will only exacerbate this. These boundaries have been continually ignored at the local and state level. Please consider combining us with Kensington again where we rightfully should be and not sever us further. Electorally I do not feel that we will be fairly represented as part of Maribyrnong.
