**Subject:** Support for proposed Electoral division of COX  
**Date:** Thursday, 3 May 2018 8:38:58 PM

---

I support the changes made to the electoral boundaries to form the new seat of Cox.

The name is appropriate for a coastal seat recognising a woman who contributed by teaching people to swim

The inclusion of coastal towns which have similar social, economic and regional interests will strengthen their governance. These towns are connected by the coastal road, tourism, surfing amateur and commercial fishing.

Coastal towns are growing rapidly so share the need for improved public transport; maintaining natural environment; housing and business development; and weekend and holiday influx.

It is essential to plan developments carefully

This area and the surrounding towns will benefit from uniting as an electoral division

I support your proposal and thank you for your consideration

Yours Faithfully

Lynette Mason
