Re: suggestions for the Victorian federal redistribution.

Hi everyone at the AEC, one of Australia's most important public institutions. I have several suggestions for the name of Victoria's newest federal electorate.

If I am ever elected to any parliament, I would like to say that I am the Member for Bafflement 😊

1. Ryan, in honour of the late federal senator.
2. Bafflement, as in the electorate is baffled by the current state of Australian politics.

Kind regards
