## Objection to the boundary of the proposed seat of Hawke

I live in Bacchus Marsh and object to the boundary of the proposed seat of Hawke.

The Eastern boundary of Hawke should extend more Eastwards instead of Northwards, so it basically follows the rail corridor.

The enrolment numbers could then be balanced by cutting out the North East area including Sunbury

While Bacchus Marsh might be similar to Sunbury in that we are both peri-urban towns, we need more than that similarity. Our infrastructure requirements are different and the rail to/from Melbourne is essential for Melton and Bacchus Marsh.

Thank you for the input opportunity.
