Dear Sir/Madam,

Re: Redistribution of federal divisions

I write this submission in relation to the abovenamed matter, namely the redistribution of federal divisions in Victoria.

We at Gumbuya World are currently domiciled in the suburb of Tynong, which sits in the division of Monash. Gumbuya World seeks to make a submission to move the localities surrounding Gumbuya World, including Tynong, Tynong North, Garfield and others into the federal division of La Trobe.

The suburbs located across Monash's western boundaries, such as Tynong and Tynong North, share an incredibly affinity with La Trobe's eastern border localities such as Nar Nar Goon, Nar Nar Goon North and Pakenham. As such, Gumbuya World often receives many of its patrons from these nearby La Trobe localities. There is here, a clear community connection.

As such, a community has been created which currently is split between two federal divisions – being Monash and La Trobe.

Gumbuya World deems it appropriate that this split be removed and the localities on either side of the Monash-La Trobe border be brought into one singular entity, encompassed within La Trobe's electoral boundaries.

This would also make sense from a Council perspective as it brings suburbs within the Cardinia Shire together, rather than splitting them between Federal Members. This will be better for the constituents of Cardinia Shire overall, to be governed by a singular body at the Federal level. This also removes any unnecessary local complications.

There is a clear community connection between residents of Cardinia and as such it seems appropriate to bring these residents within the boundaries of La Trobe.

Gumbuya World wishes to submit that La Trobe's boundaries should extend eastwards to encompass the rest of Cardinia so that federal boundaries reflect this intimate community connection.

Tynong North Operations Pty Ltd Trading as Gumbuya World

It is our submission that moving La Trobe's boundaries in this direction is a sensible, low-cost move that would benefit the wider Cardinia community.

I trust that you will consider our submission.

Kind Regards,

Ron Weinzierl
