ABS – Australian Bureau of Statistics

AEC - Australian Electoral Commission

ASGS - Australian Statistical Geography Standard

CED – Commonwealth Electoral Division

GL - Gazetted Locality

LGA - Local Government Area A.K.A. Municipality, City Council, Regional Council, Shire, etc.

SA (SA1, SA2, SA3, SA4) - Statistical Areas used by the ABS: SA1 being the smallest and SA4 being the largest state-based Statistical Area.

SED – State Electoral District

The Act - Commonwealth Electoral Act (1918)

N, S, E, W, NE, SE, NW, SW, etc. – Compass Points: North, South, East, West, North-East, etc.

Data Sources & References

To assist in the preparation of this document, I downloaded data and/or referenced information from the following web sites:

The ABS: <http://www.abs.gov.au/> 2016 Census information, breakdown of population by Mesh Block, SA1 and area measurement

The AEC: <http://www.aec.gov.au/>

Monthly Divisional Enrolment Statistics from the Gazettes published on the Australian Government Federal Register of Legislation website:

Introduction

To the Redistribution Committee for Western Australia,

Firstly, I would like to thank the Redistribution Committee for the opportunity to make this submission and proposal for the Electoral Redistribution of the State of Western Australia.

This submission contains my proposal on where to re-draw the electoral boundaries for the 15 Commonwealth Electoral Divisions, to which the State of Western Australia is now entitled as a result of the 2020 Determination.

I have been a regular contributor to electoral redistributions at both Commonwealth and State/Territory levels since 2013 and in that time have built up knowledge in the redistribution process and legislative requirements.

My principles for strong Divisional boundaries

The people who endure the greatest impact of Electoral Redistributions are the electors themselves. I believe it is critical that any new boundaries proposed are simple, strong and easily recognisable; not just by those with a surveying background, but by the electorate at large. Just as importantly, these boundaries must be logical.

As a rule, I will try and unite a complete LGA, SA2 or GL in a Division where it is practical to do so - especially in regional areas. I have adopted the NSW Redistribution Committee's principle; "*community of interests represented by local government areas (LGAs) and localities are kept together, particularly in rural areas*" - though there are some instances where the LGA boundary does not align with the best possible *community of interests* scenario. These will be identified when assessed.

In urban areas I will follow a road, rail line or a watercourse where this provides a clear and preferably continuous boundary.

Specifically; if my boundary is a road, the boundary will follow the centre line of the road. If the road is a divided road, then the boundary will follow the centre of the median strip. If my boundary is a rail line, then the boundary is the centre of the two rails. If there are multiple lines; the boundary is the mid-point between the 2 outside rails. If my boundary is a watercourse, it will follow the deepest part of that watercourse.

Whilst these boundaries may not strictly align with Locality, LGA, SA1 or current Divisional boundaries, I believe they provide the clearest definition of these types of boundaries.

In some instances, I have had to split SA1's in order to provide what I believe to be the strongest possible electoral boundary. In cases such as this, I have resorted to the Mesh Block population statistics (2016 Census) to better determine precise numbers. Where a Mesh Block is split, I have resorted to attempting to count dwellings using Google Earth.

In these circumstances, the elector transfers between Divisions will not be 100% accurate, but as close as I can reasonably ascertain given the (lack of) technology available to me.

Reviewing the Projections from the previous Redistribution: 2014-16

It is important to review the accuracy or otherwise of the enrolment projections from the previous Redistribution after the fullness of time.

The reason for this is that it is the projected enrolment numbers which are the major consideration in where to draw new boundaries.

If the fullness of time proves these projections to be grossly inaccurate, it has the potential to distort an election result.

The table below details the enrolment numbers from the previous Redistribution with the Projected enrolment numbers as of 8/2/17 compared to the actual numbers published by the AEC from 8 days prior on 31/1/17.

As can be seen in the table, the overall growth projection for the State was just 5.05% under the actual growth. However, the discrepancies within some Divisions are concerning. The Redistribution Committee must ensure to the best of its ability that these same discrepancies are not repeated this time around.

Worth highlighting are the 4 Divisions that grew significantly greater than was projected: Brand, Canning, Forest and Pearce. Of those 4 Divisions, 3 are on the coast to the S of the City; Pearce stretches from the coast on the City's outer N to Wheatbelt Shires in the E.

Tangney (Inner S) & Cowan (Outer N) failed to reach their projected numbers by 4000 or more electors. The next group most below growth targets were Stirling (Inner N); Moore (N); Durack (Outback N) & Swan (Inner S)

Only Burt, Fremantle and O'Connor were within 1,000 electors of their projected enrolment numbers.

Division	1/12/2014 Redistribution	8/02/2017 Projection Date	31/01/2017 Gov. Gazette	Proj Increase	Actual Increase	Discrepancy

O'Connor	100,848	102,279	1,431	1.42%	101,985	101,703	-282	-0.28%	-1.70%
Pearce	99,767	126,555	26,788	26.85%	125,488	142,491	17,003	13.55%	-13.30%
Perth	97,015	104,870	7,855	8.10%	104,026	106,518	2,492	2.40%	-5.70%
Stirling	97,609	103,471	5,862	6.01%	103,123	104,440	1,317	1.28%	-4.73%
Swan	95,819	103,655	7,836	8.18%	102,932	105,211	2,279	2.21%	-5.96%
Tangney	93,157	95,075	1,918	2.06%	94,827	95,804	977	1.03%	-1.03%
Totals	1,549,959	1,691,169	141,210		1,682,574	1,752,566	69,992		

The table above compares growth for the previous 4.5 years with the projected growth for the next 4.5 years.

Overall, the State is projected to grow at slightly less than 50% numerically in the next 4.5 years compared to the preceding 4.5 years.

This rate of growth varies from Division to Division though there are a couple of anomalies worth noting.

Both large rural Districts; Durack and O'Connor are projected to decline in enrolment over the next 4.5 years despite minimal, yet positive growth for the previous 4.5 years.

Stirling and Swan are expected to grow at only around 25% of their rate compared to the previous 4.5 years.

Conclusion from projections

The fullness of time has proven some of the 2016 projections to be inaccurate, and those same (failed) trends are being proposed again based on my analysis of the numbers supplied.

Specifically, the projected declines in the large Divisions (Durack & O'Connor) has no basis based on enrolment trends of the past 5 years

Inner Divisions like Curtin and Tangney seem to have ambitious projections compared to trend.

Approach

The Swan River divides coastal Perth north and south.

Between them, the northern suburban Divisions of Cowan, Curtin, Moore, Perth and Stirling are 50.98% below quota.

The southern suburban Divisions of Brand, Burt, Canning, Fremantle, Hasluck, Swan and Tangney are 37.32% below quota.

Add O'Connor's 12.95% shortfall to the southern suburbs and it appears at the outset that Hasluck is the likely casualty of this Redistribution.

With Durack 18.24% under projection and Pearce 21.96% over projection, Pearce's surplus can supplement Durack's shortfall with the wheatbelt shires from Gingin around to Beverley transferred.

In the south, Fremantle and Brand are both within tolerance and don't need to be changed. Some creative moving of electors between Tangney and Swan may also avoid Burt being changed. Ideally, Forrest and Canning wouldn't need to be changed either, save for the fact that O'Connor needs to gain electors.

Current and Projected enrolments and variations from Average

Current Divisions with variations based on 15 Divisions				
	Current	% Var	Projected	% Var
Brand	110,508	-1.48%	119,561	2.33%
Burt	109,053	-2.78%	116,511	-0.28%
Canning	110,091	-1.85%	117,835	0.85%
Cowan	100,543	-10.37%	104,250	-10.77%
Curtin	101,848	-9.20%	105,373	-9.81%
Durack	98,382	-12.29%	95,524	-18.24%
Forrest	107,326	-4.32%	113,971	-2.45%
Fremantle	109,269	-2.59%	115,628	-1.04%
Hasluck	100,732	-10.20%	103,715	-11.23%
Moore	102,441	-8.67%	104,031	-10.96%
O'Connor	101,985	-9.08%	101,703	-12.95%
Pearce	125,488	11.87%	142,491	21.96%
Perth	104,026	-7.26%	106,518	-8.83%

Swan	102,932	-8.24%	105,211	-9.95%
Tangney	94,827	-15.46%	95,804	-18.00%
Totals	1,682,574		1,752,566	

Proposed Divisions:

As is normal with WA Redistributions, the outback Divisions of Durack and O'Connor need to have their numbers addressed first, then I will address the south coast & south metro Divisions. Finally moving on to Pearce and the north metro Divisions.

Durack

Durack is currently -12.29% below Average Divisional Enrolment for 15 Divisions; and projected to fall to -18.84% below Average Divisional Enrolment by the Projection Date.

The numbers supplied show that Durack is projected to fall in actual enrolment over the next 4.5 years which is not what the trend of the previous 4.5 years has shown. Time will tell.

Regardless, Durack must gain electors and can only gain electors from either Pearce or O'Connor. I was loath to adjust the Durack – O'Connor boundary as the means of communication and travel are as good as they can get, given the remoteness of parts of both Divisions.

As noted in my approach, Pearce's surplus can more than accommodate for the shortfall in Durack. Therefore, I propose the Wheatbelt Shires of Gingin, Chittering, Toodyay, Northam, York and Beverley are transferred from Pearce to Durack.

Table of Transfers - Durack

Division	Component	Proposed	Projected
Durack		98,382	95,524
From Pearce	Chittering SA2 - all	3,920	4,408
From Pearce	Gingin - Dandaragan SA2 - balance	3,582	3,658
From Pearce	Northam SA2 - balance	7,349	7,228
From Pearce	Toodyay SA2 - all	3,326	3,453
From Pearce	York - Beverley SA2 - balance	4,017	4,000
New Total		120,576	118,271
Variation		7.49%	1.23%
To Durack	Total transfers in	22,194	22,747
From Durack	Total transfers out	0	0

O'Connor

O'Connor is currently -9.08% below Average Divisional Enrolment for 15 Divisions and projected to fall to -12.95% below Average Divisional Enrolment by the Projection Date.

Like Durack, O'Connor's projected enrolment trend is negative even though there is no indication of a net decline in O'Connor's enrolment based on trend data.

O'Connor shares electoral boundaries with Durack, Pearce, Canning and Forrest. With its Durack boundary proposed to be unchanged and its boundary with Pearce now transferred to Durack, O'Connor must make gains in its west.

To address its shortfall in enrolment, I propose O'Connor acquire 3 LGA's from Canning and Forrest: Boddington Shire from Canning, Nannup and Augusta-Margaret River Shires from Forrest.

Table of Transfers – O'Connor

Division	Component	Proposed	Projected
O'Connor		101,985	101,703
From Canning	Brookton SA1 5124606 - balance	0	0
From Canning	Murray SA2 - part: Boddington LGA	1,161	1,123
From Forrest	Augusta SA2 - all	4,321	4,891
From Forrest	Margaret River SA2 - all	6,245	7,019
From Forrest	Pemberton SA2 - balance	1,019	1,043
New Total		114,731	115,779
Variation		2.28%	-0.91%
To O'Connor	Total transfers in	12,746	14,076
From O'Connor	Total transfers out	0	0

Forrest

Forrest is currently -4.32% below Average Divisional Enrolment for 15 Divisions and projected to rise to -2.45% below Average Divisional Enrolment by the Projection Date.

To offset the loss of Nannup and Augusta-Margaret River Shires to O'Connor Forrest needs to push N into Canning to recover its numbers.

The Waroona Shire is the southernmost LGA in Canning so is transferred to Forrest. With more electors still to gain, I thought it better to leave Murray Shire in Canning and transfer the southern part of Mandurah LGA to Forrest. The Dawesville Channel would have been the perfect place for the proposed boundary but this still left Forrest short on projected electors. So, I also propose the locality of Wannanup is transferred to Forrest to complete its numeric requirements.

Table of Transfers – Forrest

Division	Component	Proposed	Projected
Forrest		107,326	113,971
From Canning	Dawesville - Bouvard SA2 - all	5,786	6,489
From Canning	Falcon - Wannanup SA2 - part: GL of Wannanup	2,954	3,226
From Canning	Waroonna SA2 - balance	2,961	3,045
To O'Connor	Augusta SA2 - all	-4,321	-4,891
To O'Connor	Margaret River SA2 - all	-6,245	-7,019
To O'Connor	Pemberton SA2 - balance	-1,019	-1,043
New Total		107,442	113,778
Variation		-4.22%	-2.62%
To Forrest	Total transfers in	11,701	12,760
From Forrest	Total transfers out	-11,585	-12,953

Brand

Brand is currently -1.48% below Average Divisional Enrolment for 15 Divisions and projected to rise to 2.33% above Average Divisional Enrolment by the Projection Date.

Currently, this Division is wholly comprised of 2 LGA's: Kwinana and Rockingham. As the Division is already within numeric tolerances and more than meets all the other requirements of The Act, there is no reason to change what is already a very well-defined Division.

I propose no changes for Brand.

Table of Transfers – Brand

Division	Component	Proposed	Projected
Brand		110,508	119,561
	No Change		
New Total		110,508	119,561
Variation		-1.48%	2.33%
To Brand	Total transfers in	0	0
From Brand	Total transfers out	0	0

Fremantle

Fremantle is currently 2.59% below Average Divisional Enrolment for 15 Divisions and projected to rise to -1.04% below Average Divisional Enrolment by the Projection Date.

Like Brand, immediately to its S, Fremantle is within both current and projected enrolment tolerances and though its Divisional boundaries do not always align with LGA boundaries, they are solid enough to require no changes at this Redistribution.

Table of Transfers - Fremantle

Division	Component	Proposed	Projected
Fremantle		109,269	115,628
	No Change		
New Total		109,269	115,628
Variation		-2.59%	-1.04%
To Fremantle	Total transfers in	0	0
From Fremantle	Total transfers out	0	0

Burt

Burt is currently -2.78% below Average Divisional Enrolment for 15 Divisions and projected to rise to -0.28% below Average Divisional Enrolment by the Projection Date.

Burt was another Division within current and projected tolerances and could have remained unchanged providing the shortfall in Tangney could be supplemented from Swan.

Ultimately, I took the decision to propose that Tangney cross the Canning River into South Perth LGA to recover its numbers.

This allows Burt to be left unchanged from its current boundaries.

Table of Transfers - Burt

Division	Component	Proposed	Projected
Burt		109,053	116,511
	No Change		
New Total		109,053	116,511
Variation		-2.78%	-0.28%
To Burt	Total transfers in	0	0
From Burt	Total transfers out	0	0

Canning

Canning is currently -1.85% below Average Divisional Enrolment for 15 Divisions and projected to rise to 0.85% above Average Divisional Enrolment by the Projection Date.

Canning had lost electors in its S to both Forrest and O'Connor so needed to gain electors in its N to recover its numbers.

Along its northern boundary, Canning shares electors within Gosnells LGA with the Divisions of Burt and Hasluck. In Kalamunda LGA, Canning shares electors with Hasluck and Swan Divisions.

I propose that Canning transfer to what will ultimately be a part of Swan, its electors in Kalamunda LGA and obtain from Hasluck, its portion of the electors in Gosnells LGA.

Table of Transfers – Canning

Division	Component	Proposed	Projected
Canning		110,091	117,835
From Hasluck	Beckenham - Kenwick - Langford SA2 - balance	8,243	8,538
From Hasluck	Maddington - Orange Grove - Martin SA2 - balance	6,989	7,299
To Forrest	Dawesville - Bouvard SA2 - all	-5,786	-6,489
To Forrest	Falcon - Wannanup SA2 - part: GL of Wannanup	-2,954	-3,226
To Forrest	Waroona SA2 - balance	-2,961	-3,045
To O'Connor	Brookton SA1 5124606 - balance	0	0
To O'Connor	Murray SA2 - part: Boddington LGA	-1,161	-1,123
To Swan	Lesmurdie - Bickley - Carmel SA2 - balance	-938	-1,017
New Total		111,523	118,772
Variation		-0.58%	1.66%
To Canning	Total transfers in	15,232	15,837
From Canning	Total transfers out	-13,800	-14,900

Tangney

Tangney is currently -15.46% below Average Divisional Enrolment for 15 Divisions and projected to fall to -18% below Average Divisional Enrolment by the Projection Date.

Not just in its current configuration, but also prior to the 2014-16 Redistribution, Tangney has been notorious for being at the lower end of enrolment of Divisions in the State.

At the projection date of 8/2/2017, Tangney was the least enrolled Division in the State and fell short of its projected quota by 4,288 electors.

Again, the projected growth numbers for Tangney seem higher than recent trends have shown, so I am proposing a Tangney with a projected enrolment towards the top end of tolerance.

Bound by the Swan River to the N, and with both Fremantle and Burt requiring no boundary changes, I propose Tangney cross the Canning River into South Perth LGA to acquire the electors it needs to return to quota.

Specifically, from the Swan River, I propose Tangney's eastern boundary now run S on a line in continuation N of Coode St, South Perth, immediately turning E into Douglas Ave, following Douglas Ave SE as it becomes Hayman Rd and continuing to Kent St and the South Perth LGA boundary. Thereafter, following the South Perth LGA boundary generally southwards to the Canning River.

Table of Transfers – Tangney

Division	Component	Proposed	Projected
Tangney		94,827	95,804
From Swan	Como SA2 - all	9,987	10,048
From Swan	Manning - Waterford SA2 - all	7,414	7,758
From Swan	South Perth - Kensington SA2 - part: W of Douglas Ave	7,114	7,042
New Total		119,342	120,652
Variation		6.39%	3.26%
To Tangney	Total transfers in	24,515	24,848
From Tangney	Total transfers out	0	0

Swan

Swan is currently -8.24% below Average Divisional Enrolment for 15 Divisions and projected to fall to -9.95% below Average Divisional Enrolment by the Projection Date.

Swan has to gain to its E to compensate for the transfer of much of South Perth LGA to Tangney. To that end I propose that Swan gain all of the Kalamunda LGA from both Canning and Hasluck.

The small portion of Canning LGA in Hasluck is also transferred to Swan.

Table of Transfers – Swan

Division	Component	Proposed	Projected
Swan		102,932	105,211
From Canning	Lesmurdie - Bickley - Carmel SA2 - balance	938	1,017

The Divisions of Curtin, Perth and Stirling are for the most part bound by the LGA boundaries of Stirling, Bayswater and Bassendean with the Swan River forming the majority of their southern boundary.

However, on projected enrolments, and remaining within those constraints, they are 29.25% of a Division under enrolled. Some expansion into Joondalup, Wanneroo or Swan will be required.

Curtin

Curtin is currently -9.2% below Average Divisional Enrolment for 15 Divisions and projected to fall to -9.81% below Average Divisional Enrolment by the Projection Date.

With the Indian Ocean as its western boundary, the Swan River making up much of its southern boundary and the Mitchell Fwy making up much of the eastern boundary, I propose Curtin push further north along the coast to acquire the electors it needs from Stirling.

From its existing boundary on Karrinyup Rd, I propose the Curtin – Stirling boundary continue generally WNW on Karrinyup Rd before turning N along Marmion Ave and finally W into Beach Rd along the Joondalup – Stirling LGA boundary to the Indian Ocean.

Table of Transfers – Curtin

Division	Component	Proposed	Projected
Curtin		101,848	105,373
From Stirling	Karrinyup - Gwelup - Carine SA2 - part: S of Karrinyup Rd.	2,281	2,416
From Stirling	Scarborough SA2 - balance	3,652	3,762
From Stirling	Trigg - North Beach - Watermans Bay SA2 - part: Stirling LGA	5,976	6,220
New Total		113,757	117,771
Variation		1.41%	0.80%
To Curtin	Total transfers in	11,909	12,398
From Curtin	Total transfers out	0	0

Perth

Perth is currently -7.26% below Average Divisional Enrolment for 15 Divisions and projected to fall to -8.83% below Average Divisional Enrolment by the Projection Date.

Even though this Division contains the City of Perth itself, its focus is more on the NE suburbs to the N of the Swan River, particularly the electors contained within the Bayswater and Bassendean LGA's.

Needing to find additional electors, my first thoughts were to straighten out at least some of Perth's boundaries with Stirling. One that instantly appealed was Alexander Dr, which already forms part of Perth's boundary in 2 separate sections. The opportunity to continue Alexander Dr as Perth's boundary through Dianella and Yokine was the path I followed and numerically it transfers to Perth the number of electors required to be in tolerance.

Therefore, the parts of Dianella and Yokine E of Alexander Dr are transferred from Stirling to Perth. Also transferred to Perth from Stirling is the small part of Morley in Bayswater LGA at the eastern corner of the Division of Stirling.

Table of Transfers – Perth

Division	Component	Proposed	Projected
Perth		104,026	106,518
From Stirling	Dianella SA2 - part: E of Alexander Dr	8,442	8,464
From Stirling	Morley SA2 - balance	533	531
From Stirling	Yokine - Coolbinia - Menora SA1 5109701	180	185
New Total		113,181	115,698
Variation		0.90%	-0.98%
To Perth	Total transfers in	9,155	9,180
From Perth	Total transfers out	0	0

Stirling

Stirling is currently -8.07% below Average Divisional Enrolment for 15 Divisions and projected to fall to -10.61% below Average Divisional Enrolment by the Projection Date.

Having lost the balance of the coast of Stirling LGA to Curtin and half of Dianella to Perth in its E, Stirling has to go north into the LGA's of Joondalup and Wanneroo to recover its numbers.

From the intersection of Mirrabooka Ave and Beach Rd on the Stirling – Wanneroo LGA boundary I propose Stirling's new boundary turn N along Mirrabooka Ave; W on Marangaroo Dr and continuing W into Warwick Pl and Mereworth Way; N along Wanneroo Rd; W along Hepburn Ave to its end, S along Southside Dr until it runs beside Sorrento Beach.

Table of Transfers – Stirling

Division	Component	Proposed	Projected
Stirling		103,123	104,440
From Cowan	Girrawheen SA2 - all	5,481	5,394
From Cowan	Greenwood - Warwick SA2 - balance	9,619	9,747
From Moore	Duncraig SA2 - all	11,125	10,875
From Moore	Greenwood - Warwick SA2 - balance	0	0

Variation		3.39%	0.06%
To Stirling	Total transfers in	33,919	34,047
From Stirling	Total transfers out	-21,064	-21,578

Moore

Moore is currently -8.67% below Average Divisional Enrolment for 15 Divisions and projected to fall to -10.96% below Average Divisional Enrolment by the Projection Date.

Moore has been almost entirely contained with the Joondalup LGA but the reduction in Divisions and the projected elector shortfall of Divisions to the S makes this impossible to continue.

Moore's community of interest is also the Indian Ocean coast and with recent developments in Wanneroo LGA, pushing N along the coast would maintain that community of interest.

With Moore now extending no further S than Hepburn Ave and Hillary's Marina, I propose Moore gain the balance of Kingsley, E of Goolelal Dr from Cowan.

On its northern boundary, Moore now continues northwards into Wanneroo LGA following the Mitchell Fwy and Butler Rail Line, continuing along the eastern then northern locality boundary of Ridgewood which becomes Lukin Dr, W along Lukin Dr, NW along Marmion Ave and finally W along Jindalee's northern locality boundary to the Indian Ocean

Table of Transfers – Moore

Division	Component	Proposed	Projected
Moore		102,441	104,031

To Moore	Total transfers in	29,010	31,373
From Moore	Total transfers out	-18,819	-18,906

Cowan

Cowan is currently -10.37% below Average Divisional Enrolment for 15 Divisions and projected to fall to -10.77% below Average Divisional Enrolment by the Projection Date.

With only Cowan, Hasluck and Pearce remaining, and only one of either Hasluck or Pearce to remain a Division, I wanted to strengthen both Divisions communities of interests. Cowan already has the southern populated part of Wanneroo LGA to the east of Joondalup LGA.

I propose to focus Cowan on the balance of Wanneroo LGA retaining only the western corner of Swan LGA that adjoins Wanneroo LGA. After transferring the balance of Wanneroo LGA from Pearce to Cowan, I found that Cowan needs to retain only the Ballajura and Malaga SA2's from within Swan LGA.

Table of Transfers – Cowan

Division	Component	Proposed	Projected
Cowan		100,543	104,250
From Pearce	Alkimos - Eglinton SA2 - all	6,527	9,165

To Cowan	Total transfers in	34,167	40,865
From Cowan	Total transfers out	-28,950	-28,763

Pearce

Pearce is currently 11.87% above Average Divisional Enrolment for 15 Divisions and projected to rise to 21.96% above Average Divisional Enrolment by the Projection Date.

It is the only Division in WA that required a net transfer out of electors to return to enrolment tolerance.

Exactly what Pearce's community of interest is in its current format is hard to pin down. It contains wheatbelt LGA's in its N and E. It contains localities on the inland urban fringe like Dayton and Brabham. It contains the high-density urban and urbanising Wanneroo Coast.

To categorise it as a 'bitzer' Division would not be inaccurate.

Having already lost its wheatbelt shires to Durack, its Wanneroo coast to Cowan and Moore it became a case of whether Pearce would pick up all of Mundaring LGA and the balance of Swan LGA from Hasluck or whether Hasluck would gain Pearce's part of Swan LGA.

On current enrolment numbers, and after transfers out to other Divisions, Hasluck retained 53.74% of its electors and Pearce just 32.59%. In raw numbers, Hasluck retained 54,135 current electors whilst Pearce retained only 40,897. These key statistics seal Pearce's fate.

Despite having the highest enrolment in the State leading into this Redistribution, its diverse communities of interest and its need to supplement Durack leave it as the Division to be abolished at this Redistribution.

Table of Transfers – Pearce

Division	Component	Proposed	Projected
Pearce		125,488	142,491

Hasluck

Hasluck is currently -10.2% below Average Divisional Enrolment for 15 Divisions and projected to fall to -11.23% below Average Divisional Enrolment by the Projection Date.

At the outset of this submission I was certain that it would be Hasluck that would be abolished but it turns out not to be the case.

Whilst the Division of Canning picks up its Gosnells LGA component, Swan picks up its Kalamunda LGA component; Hasluck consolidates its community of interest by having electors from just the two north-eastern LGA's of Swan and Mundaring.

Despite its increase in electors, I think it's a much better Division as far as meeting Section 66(3) of The Act is concerned.

Table of Transfers – Hasluck

Proposed Divisional Enrolment Summary

The table below details a summary by CED of my proposed 15 Divisions for Western Australia after all transfers are completed. A more detailed breakdown of the Statistical Areas that make up each Division can be found in the Proposed Divisional Structure, a PDF'd Excel Document accompanying this PDF.

The Divisional Names in orange background are proposed to be unchanged from their current boundaries.

Proposed Divisions with variations based on 15 Divisions				
	Current	% Var	Projected	% Var
Brand	110,508	-1.48%	119,561	2.33%
Burt	109,053	-2.78%	116,511	-0.28%
Canning	111,523	-0.58%	118,772	1.66%
Cowan	105,760	-5.72%	116,352	-0.42%
Curtin	113,757	1.41%	117,771	0.80%
Durack	120,576	7.49%	118,271	1.23%
Forrest	107,442	-4.22%	113,778	-2.62%
Fremantle	109,269	-2.59%	115,628	-1.04%
Hasluck	108,102	-3.63%	117,042	0.17%
Moore	112,632	0.41%	116,498	-0.29%

Totals	1,682,574		1,752,566	

Notes relating to the Proposed Divisional Structure Document

I have sorted the Proposed Divisional Structure document by:

1. Proposed Division
2. SA4_CODE_2016 (not displayed)
3. SA3_CODE_2016 (not displayed)
4. SA2_NAME_2016 (alphabetical)
5. SA1_MAINCODE_2016
6. Current Division
7. LGA

Where an SA1 traverses an LGA boundary and the breakdown has not been provided by the AEC, I have proportionally applied electors based on the Persons Usually Resident (PUR) count for each associated Mesh Block based on the data provided from the 2016 Census.

SA1's that are either currently split between Divisions or are proposed to be split between Divisions will have their SA1_MAINCODE_2016 & SA1_7DIGITCODE_2016 fields appear in red font with a red background.

Where all of the SA1's within an SA2 are currently in both a single Division and LGA and are proposed to remain within the same single Division and LGA, these are condensed to a single row.

The electors allocated to each Division in a split SA1 will be approximate as they are based on 2016 Census Data and assumptions relating to subsequent development.

There may be errors in the LGA allocated against some split SA1's.

This concludes the narrative of my submission. I look forward to seeing other suggestions – the good and the bad – and especially the thoughts of the other independent regular contributors.

I wish the Redistribution Committee well in their deliberations.
