Homewood comment on objections to abolishment of the Division of North Sydney

I lodged an objection to the proposed abolishment of the Division of North Sydney and have now read Objection 686 by Kylea Tink MP. My comments on Objection 686 are as follows

1. It supplies the data that shows that population growth within the Division of North Sydney will far exceed that predicted by the ABS
2. It makes the point that the Division of North Sydney has a proud history in the Parliament of Australia as a foundation electorate and by its connections with Ted Mack (and I add, the Spender family)
3. It outlines a viable and fair alternative to the abolishment of Division of North Sydney
