Subject: Support for Kylea Tink MP submission #686

Dear Commissioner,

I am writing to express my support for Kylea Tink MP submission, number 686, objecting to the abolition of the North Sydney electorate.

Ms Tink's submission offers well stated arguments as to why the North Sydney electorate should remain. The submission covers the proposed, and unavoidable, elector growth within the electorate, as well as the unique community identity and the economic and social communities of interest of the electorate and how these differ from the electorates of Bennelong, Bradfield, and Warringah.

Ms Tink's submission also offers a well-argued proposition for an alternative, namely the proposal to merge the divisions of Bradfield and Berowra that would meet the Commissions needs and criteria. This alternative is more closely aligned with the Commissions stated goal of moving the fewest number of electors between electorates.

Thank you for considering my submission.

Yours sincerely,

Paul Heywood.
