In response to Objection 686 from Kylea Tink MP (North Sydney)

Dear Federal Redistribution committee for New South Wales,

I am writing to affirm my strong support for Objection 686 from Kylea Tink MP regarding the suggestion to abolish the seat of North Sydney.

North Sydney has a strong community of interest and community members who are connected and have worked together to achieve the representation many of us wanted to see. It ought to be retained and there are many other comments that make excellent points as to why it should be (such as the one indicating that there should be best effort made to retain the names of Federation Seats which has not been reflected in the redistribution suggestion).

Regards,

Kar Yee Chiu

Gladesville (in the seat of North Sydney)
