Question: Dear ARC

In addition to the objections raised by Dr Sophie Scamps, regarding the absence of community cohesion in your proposed changes, I have a further question.

If these changes are implemented and without adequate transport and social connections, how can you guarantee democratic representation?

The population will be significantly increased particularly if new housing developments are constructed yet there are no links with other Mackellar social, educational, economic or representative links!

This is a retrograde step that disenfranchises those in the added areas of St Ives and nearby areas as well as the citizens of Mackellar
