To Whom It May Concern:

I wish to note my objection to any redistribution of the North Sydney Electorate, particularly if it means our electorate is to be absorbed within neighbouring ones, e.g. Bennelong, Bradfield or Warringah.

North Sydney has existed since Federation, and at its core is a strong community of interest established around the spine of the north shore rail line. Our community needs a local member to fully represent us.

I have lived all my adult life in Northbridge and Castlecrag, hence my children were educated here, we belong to sporting associations and various community groups and clubs. I could never see myself having the same connection much further afield, i.e. in Ryde or Manly.

Yours faithfully,
