Objection to Redistribution of Warringah Electorate

I wish to object to the proposed redistribution of the electorate of Warringah on the following grounds:

- 1) I have lived in the electorate for over 24 years and do not wish to be removed from Warringah.
- 2) The proposed distribution will materially affect the character of the electorate in that Dee Why, a predominantly middle to working class suburb has a significant effect on the character of the electorate.
- 3) I am deeply involved in the politics of the electorate and have a significant emotional investment in current member and the future of the representation in the area.
- 4) I feel that the proposed changes would affect the nature of the electorate which has shown itself to be a swinging electorate in recent federal elections. The proposed changes would skew the electorate very solidly to the right, losing its independent spirit.

Sincerely,

David Lewis
