

**THE FEDERAL
REDISTRIBUTION
NEW SOUTH WALES**

Objection 136

RM

1 page

Dear AEC

I wish to lodge an objection to the proposed abolition of the Federal seat of North Sydney. The seat of North Sydney encompasses a community that has a unique identity and a long history of independent thinking and independent candidates. The area has a strong philosophy of looking after the unique bush environment in the electorate and I am actively involved in bush care and bush walking groups. There are also great running groups. I do my shopping in both the Lane Cove and North Sydney areas and use public transport to travel around it. The transport in the area requires an integrated approach and this is going to be even more critical with the massive increase in high density housing underway and proposed for the area. There are unique community sports festivals and art trails. It has the greatest community sentiment of any electorate I have lived in.

We have a great independent candidate who very well reflects the unique and vibrant community values and lifestyle interests of the electorate. I would be incredibly sad if her great input to federal policy was lost

Please give serious consideration to the damage to our community that the abolition of the Federal seat of North Sydney would cause. We love our community and do not want it to be fragmented.

Kind regards

RM
