

**THE FEDERAL
REDISTRIBUTION
NEW SOUTH WALES**

Objection 319

Sheila Walkerden

1 page

Objection to the Federal Electoral Boundary Redistribution 2023-4.

I object to the proposed elimination of the Federal Electorate of North Sydney in the proposed distribution

My reason is that the population of the electorate is increasing not decreasing.

Many new apartment blocks are being built, or are in the construction pipeline, because of the new rail links shortly to be opened. The St Leonard's hub is attracting more residents because of facilities already existing and being built. Crows Nest will soon be the site of a new Metro station.

While the increase of the population is not immediate, it will be a matter of several tens of thousands in a few years. The statistics are available.

For this reason the electorate of North Sydney should be preserved as a growing, cohesive and forward looking electorate.
