Objection on changing North Sydney Electorate Borders

To whom it may concern,

Hereby, I announce my objection in changing the North Sydney electorate borders based on the following reasons:

1. North Sydney has a historical electorate for many many years. It is the second business district of Sydney.
2. The population of North Sydney is still expected to grow with adding more high-rise apartments in areas such as St Leonards.
3. The composition of North Sydney community is quite unique. It is composed of new migrants, young families , alongside well established old age bracket.
4. As example of uniqueness of North Sydney is electing a modern thinking MP which has been advocate of fairness and improvement of Australia for matters such as natural environment concerns, global warming, young families, housing crisis, LGBT , and minorities rights.

Faithfully Yours,

Mehdi Kavousian
