

**THE FEDERAL  
REDISTRIBUTION  
NEW SOUTH WALES**

# Objection 447

Jill Stephenson

1 page

I wish to add my objection to the changes in boundary of North Sydney Electorate.

Arbitrary lines divide communities, activities, sporting and other clubs, and many other entities. North Sydney has worked very well for its constituents and should not be changed.

Numbers change and communities evolve slowly. Why would we redraw and fracture long settled communities unnecessarily? Is this to happen every time there is a light surge in population in one area . An expensive, disruptive and unnecessary procedure in my view.

Our member of parliament Kylea Tink works tirelessly and should not be treated with such contempt.

Thank you Jill Stephenson
