Warringah Electorate

I wish to object to the proposal to abolish the seat of North Sydney and instead I support keeping both electorates of North Sydney and Warringah.

Both these electorates exemplify what democracy should be about, a two way partnership between the MP and their teams and the voters.

What these electorates have done is produce engaged, politically involved and cohesive communities that would be sadly affected by the redistribution of seats.

People in these electorates voted, overwhelmingly, for their MPs. Their votes should not be disregarded.
