I support any proposal that makes Melbourne cross the Yarra at Southbank rather than all the way to Prahran from South Yarra. I like how OB53, OB94, OB95, OB174, OB416, OB493 and OB504 have strong boundaries for Menzies that the committee should take in particular consideration. They are very similar to the committee's proposed boundaries which are very good but can be tweaked a little. In addition, I think OB504 has very solid proposals overall that the committee should consider adopting. I like that proposal's Menzies, Melbourne, Macnamara, Flinders, Dunkley, Kooyong and Chisholm in particular.
