As a resident of Higgins I object to the recommendation to move the Chisolm boundary from Tooronga to Burke Rd- further dividing the people of the old seat of Higgins.

The community of the old seat of Higgins would be better served by moving the draft Chisolm boundary east from Tooronga to Kooyong Rd hence re-uniting the Malvern/East Malvern community- a community that has been united community of interest in the State seat of Malvern since its inception.

It would enable the Malvern and Malvern East community to have a united and stronger voice and ensure local community groups, business networks and not for profit groups remain united as communities of interest
