***Subject: My objection for the 2023-2024 Victorian federal redistribution***

I, a member of Higgins does not want the seat abolished. We, locals want one strong advocate— not have our representation divided amongst five Federal Members of Parliament.

I am an active member of community groups and not-for profit organisations working in collaboration with local businesses. We all have these concerns. Abolishing Higgins will fragment our community's representation in Canberra.

Further, Higgins with incorporates a strong community of interests - the local government area of Stonnington City Council - is proud of it's history and potential as a seat of Prime Ministers and Treasurers.
